SUMMARY OF AUDIT FINDINGS

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:

3	<ul style="list-style-type: none">• 115.215 - Limits to cross-gender viewing and searches• 115.231 - Employee training• 115.241 - Screening for risk of victimization and abusiveness
---	---

Number of standards met:

38

Number of standards not met:

0

Random Inmate/Resident/Detainee Interviews	
53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	17
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input checked="" type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	Selection of random residents was made from the population physically present at the facility and information gained from the facility database regarding age, race, ethnicity, what dorm they were assigned to and their gender. The auditor selected a minimum of 3 residents from each dorm, of each race/ethnicity and interviewed all of the females present at the facility.
56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	The facility is a residential community facility, and most of the residents are employed outside of the facility. This auditor coordinated interviews around the resident work schedules throughout the day.
Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	5
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

82. Did you interview CONTRACTORS who may have contact with inmates/residents/detainees in this facility?

Yes

No

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

83. Provide any additional comments regarding selecting or interviewing specialized staff.	Specialized individuals were selected based upon their subject matter expertise in the various areas. The facility does not house youthful residents, therefore, interviews for line staff who supervise youthful residents and education and program staff who work with youthful residents were not conducted. The facility personnel were found to be cooperative and professional.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	This auditor was allowed unimpeded access to all areas of the facility. I was able to speak to any staff or resident I asked for.
--	---

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

Yes

No

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

Employee personnel files were maintained in the Director's Office. The criminal background records check documentation was maintained in the employee personnel files. The auditor reviewed documentation from five (5) employee personnel files. When selecting the files, the auditor considered reviewing employee files of newer employees who were recently hired as well as staff who had been employed with the facility and staff that were recently promoted to positions at the facility. Training files were reviewed on the same staff. The auditor reviewed documentation from twelve (12) resident files. Documentation in the files included resident education participation acknowledgement forms as well, initial as completion of the facility Orientation Program that included additional information regarding PREA.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	2	0	2	0
Total	2	0	2	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	0	0	0	0

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

PREA Standards Compliance Checklist

Interviews:

Dismas Charities, Inc. PREA Coordinator
Dismas Charities Midland PREA Compliance Manager (Director)

Findings:

This auditor reviewed the Dismas Charities procedure that addresses the facility's support of the Prison Rape Elimination Act. The Dismas Charities Midland facility, as well as all other Dismas Charities facilities, utilize agency procedure Sexual Abuse/Harassment/Misconduct/Prevention Intervention mandating zero tolerance relating to the sexual behavior of clients, staff, volunteers, contractor and work crew supervisors. The procedure included definitions and provided training requirements of staff. The procedure also outlines the agency and facility's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The procedure defines sexual behavior as any "Verbal and physical conduct of a sexual nature directed toward a resident by another resident, staff member, agent or volunteer of a correction agency, department or private organization. Sexual misconduct by staff against a resident is prohibited by policy. Sexual misconduct, as it relates to residents, is a sexual advance, welcome or not, by a resident, staff member, agent or volunteer. It is illegal and a violation of Federal law."

Discipline for Violating Sexual Abuse/Harassment procedure, details sanctions that may be assessed to residents found guilty of sexual assaultive behavior as well as corrective action for staff, contractors and volunteers.

Dismas Charities Midland commitment of ensuring zero tolerance for sexual misconduct in the facility was observed during the onsite visit. This commitment was clearly observed by the posters, flyers and reporting systems in place for staff and residents. Staff receive information regarding PREA during their initial onboarding as well as on-going training of staff during their annual in-service training.

The Dismas Charities, Inc., agency wide PREA Coordinator reports directly to the Executive Vice President, who in turn reports directly to the Director. This position works with thirty-six (36) Dismas Charities Inc. facilities throughout the United States implementing and guiding the agency's efforts toward PREA compliance. The PREA Coordinator reported that he had sufficient time to develop, implement and oversee the agency's efforts to comply with the PREA standards.

Each community confinement facility has a director who is the facility PREA Compliance Manager (PCM) for that facility. The PREA Compliance Manager at Dismas Charities Midland is responsible for addressing all PREA concerns that occur throughout the facility. He reported that he would have sufficient time and authority to coordinate efforts to comply with PREA standards.

There is a definite commitment to the sexual safety and security of the staff and residents at the facility. Based on interviews, documentation provided and observation of operations at the Dismas Charities Midland, this auditor believes the facility "meets" this standard.

Interviews:

Dismas Charities Midland PREA Compliance Manager
Random sample of Staff
Random sample of Residents

Findings:

Review of the Dismas Charities Midland Operations Manual, 12.E, Security and Accountability, Searches and Contraband, prohibits any cross-gender pat searches, strip searches or visual body cavity searches by staff of the opposite gender. The PREA Compliance Manager indicated the facility has had no cross-gender searches (pat, strip or visual body cavity) conducted over the past twelve (12) months. There were also no exigent circumstances of cross gender searches (pat, strip or visual body cavity) conducted over the past twelve (12) months. The procedure also requires that staff shall not search or physically examine transgender or intersex residents for the sole purpose of determining their genital status. Staff may determine the genital status through conversations with the resident or by reviewing medical records that may be sent.

The facility currently has no transgender residents, but they have in the past. During the interview with the Director/PREA Compliance Manager, she shared that this individual was asked how she preferred to be addressed while she was at the facility. She said that accommodations for showering and interacting with male residents were accommodated.

Dismas Charities Midland Operations Manual, 12A, Knock Announce Policy, dated 2/22/2022, explains that the design of the resident rooms is such that a significant amount of privacy is afforded to the residents. Dismas Charities Midland staff is required to announce their presence when entering a housing unit of the opposite sex by knocking and loudly making an announcement of opposite gender staff entering a room. Both male and female resident bathrooms allow for privacy for each resident. Toilet areas are each separated by barriers with side panels and doors with locks similar to what would be found in public restrooms. Each shower area has a shower curtain that prevents staff of the opposite gender being able to view a resident in a state of undress, using the restroom or showering.

Dismas Charities Midland Operations Manual, 3.F, Site and Floor Plans, explains that dorm room assignments for a transgender resident is done by giving serious consideration of the resident's views with respect to his or her own safety. The Director/designee interviews each transgender resident, and a decision is made to determine what dorm room they will reside. The decision is based on the resident's health, safety and the security of the Center. A transgender resident will not be placed in a specific living area based solely on such identification.

Staff and resident interviews both confirm that residents are required to be clothed while going to and from the restroom and shower areas. Resident interviews indicated that residents felt they had the adequate ability to shower, perform bodily functions and change their clothing without non-medical staff of the opposite gender viewing them. Staff were all able to articulate the search procedures and situations that would be considered exigent circumstances as well as the required authorizations and the required documentation to be completed. Staff were also aware that staff are not allowed to complete searches of transgender or intersex residents to solely determine the genital status of the resident.

During the tour, the auditor observed that residents had the ability to shower, perform bodily functions and change their clothing without non-medical staff of the opposite gender viewing them.

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

Review of the training curriculum, PREA Resource Center Guidance in Cross-Gender and Transgender Pat Searches Training Curriculum, dated 2/2015, indicated compliance with policy and the standard. The curriculum indicated pat searches, cross-gender pat searches, searches of transgender and intersex residents are conducted in a respectful, professional manner and prohibits cross-gender strip searches as well as cross-gender visual body cavity searches of any resident. Curriculum also explains that a transgender or intersex resident should not be searched or physically examined for the sole purpose of determining the resident's genital status. Training records provided indicated that 100% of all staff received training on conducting cross-gender searches and searches of transgender and intersex residents in a professional and respectful manner consistent with security needs.

After reviewing agency policy, training curriculum, training records, visually observing the shower and bathroom areas of the facility, observation of staff, interviewing staff and residents, this auditor finds the facility exceeds this standard.

Findings:

Review of the Dismas Charities Inc. Sexual Abuse/Harassment/Misconduct/Prevention/Intervention Procedure .1 PREA, dated 9/17/2015, Dismas Charities Midland Operations Manual, 10.B, Programs, Resident Case Management, dated 2/2019 and Dismas Charities Midland Operations Manual, Programs, 10E, Individual Orientation provided information and guidance to ensure that residents with disabilities, such as those who are deaf or hard of hearing, those who are blind or have low vision or those who have intellectual, psychiatric or speech disabilities have an equal opportunity to participate in and benefit from all of the protections of PREA. If adequate comprehension cannot be obtained, staff will first use an in-house staff member having the necessary skills. If no staff having the necessary skills, the director will reach out to other Dismas facilities for assistance from one of their staff who can provide interpretation services. If staff from another facility are not available, the director, with assistance of the assigned Regional Vice-President will reach out to the local community for interpretation services. The Supervising Authority for the client will be informed for assistance also if needed.

In cases where there is suspected or documented difficulty with comprehension, reading or spelling, staff read the entire program rules and guidelines to the resident. In addition, comprehension of program goals, procedures, rules, disciplinary system etc., is then checked by asking the resident to explain each major section of the rules/guidelines. This procedure of verifying comprehension by obtaining the resident's verbal understanding of the rules etc., also occurs when there is a change in the resident's program status. In all cases, staff attempts to ensure each resident's comprehension of his/her rights and responsibilities, disciplinary system and program goals.

Initial PREA Education is provided by intake staff in a manner that ensures the resident comprehends the material presented and it is read to the resident during the intake process. Each resident receives a thorough orientation to the program, its rules and expectations. Spanish or English versions of the Prison Rape Elimination Act (PREA) Brochure are provided to the resident. The Orientation takes place after the Intake Interview and occurs within 24 hours of program entrance. The auditor reviewed the Resident Orientation and Acknowledgement Form (dci 223) for the Specific Content of the Resident Orientation.

During the on-site visit, there was one resident with that was hard of hearing and two inmates who were Limited English Proficient. Case management services are provided for any resident with any identified special needs. Their ability to understand the material presented to them was not hindered by their disability or language barrier. All reported that they were able to read and understand all information presented to them during their intake and orientation. The PREA Compliance Manager reported there were no resident interpreters, assistance or readers that assisted another resident with reporting allegations of sexual abuse or sexual harassment.

After reviewing agency policy, resident PREA Education presentation, interviewing staff and residents, this auditor finds this standard in compliance.

Findings:

Review of the Dismas Charities Midland Operations Manual, 2.I, Personnel, Employee Background Checks prohibits Dismas Charities Midland from hiring or promoting anyone who may have contact with residents, and shall not enlist the services of any contractor who may have contact with residents, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse. HR created a form, PREA Questions for New Applicants and Existing Teammates that is being utilized as of 6/1/2021 and will be incorporated into policy during the next review.

Information on substantiated allegations of sexual abuse or sexual harassment involving a former Dismas Charities Midland employee shall be furnished to any institutional employer the former employee has applied to work if the request was in writing.

Dismas Charities Midland performs criminal background records checks on any potential new employee and contractor who may have contact with residents. Material omissions or providing false information is grounds for termination. Staff are obligated to disclose any arrests or previous misconduct within 24-hours of the event.

Documentation received and reviewed prior to the onsite audit currently being utilized by Dismas Charities Midland indicate that there is a requirement for consideration of any incidents of sexual harassment when hiring or promoting employees or enlisting the services of any contractor.

Dismas Charities Midland policy requires the facility to perform criminal background records checks. However, current policy is not consistent with PREA requirements in making best efforts to contact all prior institutional employers for any information on substantiated allegations of sexual abuse or any resignation during a pending allegation of sexual abuse. A PREA Memo was sent to all facilities in June 2021 requiring efforts to contact all prior institutional employers for any information on substantiated allegations of sexual abuse or any resignation during a pending allegation of sexual abuse. In the past twelve (12) months, the facility reported that two (2) individuals were hired who may have contact with residents. In addition to employee applicants, zero (0) criminal background checks were completed on contracted staff over the past twelve (12) months as there were no contract staff hired by the facility in the past twelve (12) months. The criminal records checks (if completed) search for criminal convictions, pending criminal charges and driving records on a federal, state and local level. The criminal background checks (NCIC/NLETS) are not conducted onsite as clearance must be gained from the Bureau of Prisons (BOP).

All HR files contained the appropriate applications and hiring forms that include the questions regarding any prior incidents of sexual misconduct.

After reviewing agency policy and procedures, a review of HR files, staff interviews, and the receipt of follow-up documentation, this auditor finds this standard in compliance.

Findings:

Dismas Charities Inc. Procedure, Sexual Abuse/Harassment/Misconduct/Prevention/Intervention, Investigations dated 2/10/2015 and Dismas Charities Inc. Procedure Sexual Abuse/Harassment/Misconduct/Prevention/Intervention, Response Procedure, dated 9/17/2015, requires administrative and/or criminal investigations be completed on all incidents of resident-on-resident sexual abuse or staff sexual misconduct. Investigations are to be conducted promptly, thoroughly, and objectively for all allegations. Evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings or criminal proceedings are utilized. Dismas Charities refers allegations of Sexual Abuse, Harassment and Staff misconduct to the appropriate Authority Having Jurisdiction (AHJ) over the resident concerned for investigation. The Authority Having Jurisdiction (AHJ) is the Bureau of Prisons or potentially the Midland Police Department.

Individuals assigned to investigate allegations of sexual abuse or sexual harassment are required to attend specialized training that provides the skills and knowledge necessary to investigate Sexual Abuse and Harassment allegations that are made. Investigators attend Specialized Training: Investigating Sexual Abuse in Confinement Settings or PREA Investigations for Allegations of Sexual Abuse: Specialized Training that covers PREA Investigative Standards, Legal Issues and Agency Liability, Trauma and Victim Response, the Role of Medical and Mental health Practitioners in Investigations, Interviewing Techniques, First Responder and Evidence Collection, Report Writing and Prosecutorial Collaboration. Investigators are also required to complete the same PREA training courses that all staff are required to complete. Dismas Charities, Inc. investigators only conduct administrative investigations. The Midland Police Department or Bureau of Prisons would conduct an investigation involving potential criminal allegations.

The facility reports that they do not house youthful residents. The facility reports in their PAQ that the evidence protocol was adapted from or otherwise based on the most recent edition of the DOJ's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents," or similarly comprehensive and authoritative protocols developed after 2011.

The above policies require, and the facility reports that all residents who experience sexual abuse are provided access to forensic medical examinations by a Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) at no financial cost to the resident. The facility would utilize the Midland Memorial Hospital to conduct all forensic exams. An interview with the SANE at the Midland Memorial Hospital indicated they would be responsible for conducting all forensic exams of any resident from Dismas Charities Midland. Both the facility and the SAFE/SANE reported no forensic medical exams had been conducted over the last twelve (12) months on residents from Dismas Charities Midland. Any evidence collected from a forensic exam is sent to the state's crime lab. Midland Memorial Hospital has a SANE on call after normal operating hours.

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

The facility/agency does not have a Memorandum of Understanding (MOU) with the Midland Rape Crisis Center, but they have maintained a positive working relationship in which staff from the Rape Crisis Center assists with training staff. The Midland Rape Crisis Center representative will provide confidential emotional support to residents who are victims of sexual abuse and will accompany a resident during a forensic exam. Residents are provided information from the Midland Rape Crisis Center during their orientation. A telephonic interview was held with a representative from the Midland Rape Crisis Center. She indicated there had been no calls from residents assigned to Dismas Charities Midland in the last twelve (12) months.

After reviewing agency policy and procedures, staff interviews, training records, supplemental documentation and observations made during the onsite portion of the audit, this auditor finds the facility compliant with all provisions of the standard.

Findings:

In accordance with the Dismas Charities Inc., Sexual Abuse/Harassment/Misconduct/Prevention/Intervention, Training, dated 9/17/2015, require that all staff be trained (at hire and annually) to recognize the signs of resident sexual victimization and understand their responsibility in the detection, prevention, prohibition, reporting, and consequences of sexual abuse/harassment. The training contains all ten required components of the standard which include: (1) The agency's zero tolerance policy for sexual abuse and sexual harassment, (2) How to prevent, detect, report and respond to allegations of sexual abuse and sexual harassment, (3) Resident's rights to be free from sexual abuse and sexual harassment, (4) The rights of residents and employees to be free from retaliation for reporting sexual abuse and sexual harassment, (5) The dynamics of sexual abuse and sexual harassment in confinement, (6) The common reactions of sexual abuse and sexual harassment victims, (7) How to detect and respond to signs of threatened and actual sexual abuse, (8) How to avoid inappropriate relationships with residents, (9) How to communicate effectively and professionally with residents, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming residents; and (10) How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities.

In accordance with Dismas Charities Midland Operations Manual, Procedure 25.B, Personnel, Training, dated 2/2019, within the first week of employment with Dismas Charities Inc., all new employees are required to read and understand the PREA information presented to them and acknowledge by signing and dating the Staff Initial Orientation Checklist and the Staff/Volunteer Acknowledgement Sexual Abuse Prevention and Intervention form (dci903 form). The Staff Initial Orientation Checklist and the Staff/Volunteer Acknowledgement Sexual Abuse Prevention and Intervention form (dci903 form) were provided and are stored in each employee's personnel file in the Director's office. This auditor observed the PREA Acknowledgement Forms in all staff personnel files that were reviewed. By signing the form, staff acknowledge that they received the training and understand their responsibilities in reporting incidents of sexual abuse and sexual harassment. All employees are trained as new hires, regardless of their previous experience. Training is tailored to both genders so additional training is not necessary.

All staff receive Sexual Abuse/Harassment/Misconduct/Prevention/Intervention training upon hire and annually. Refresher training is conducted every month during staff meetings. Training records indicate staff completed the required training during

Dismas Charities Inc. Procedure, Sexual Abuse/Harassment/Misconduct/Prevention/Intervention-Training, dated 9/17/2015 and Dismas Charities Midland Operations Manual, Procedure 10.E, Programs, Individual Orientation, dated 2/2019 and Dismas Charities Midland Operations Manual, Procedure 10.B, Programs, Resident Case Management, dated 2/2019 requires that residents receive information upon entering the program about the zero-tolerance policy, definitions of sexual abuse, ways to prevent sexual abuse, how to report incidents or suspicions of sexual abuse or sexual harassment, resident rights if they are victims of sexual abuse to include retaliation and how to obtain counseling services and/or medical assistance if victimized. The Pre-Audit Questionnaire indicates that there were two hundred ninety-six (296) residents all of which received education on PREA's zero-tolerance policy and reporting methods for sexual abuse and sexual harassment incidents.

Upon arrival at the facility, residents receive the Midland Resident Handbook and a PREA educational brochure that contains information on ways to report incidents of sexual assault or sexual harassment. Residents are educated regarding their rights to be free from both sexual abuse and sexual harassment and retaliation for reporting such incidents and on agency policy and procedure for responding to such incidents, to the extent that the policies and procedures of the new facility differ from those of the previous facility. Assistance will be provided to those residents who have limited English proficiency, are deaf, visually impaired, or otherwise disabled as well as residents who have limited reading skills. Other residents may not be used as interpreters, readers or assistants except in limited circumstances in an exigent situation. The director will seek guidance from the Regional Vice President in these cases. Upon completion of the education/orientation, all residents sign the Acknowledgement Form acknowledging they attended PREA Orientation. The resident receives a copy of the Acknowledgement Form while the original is maintained in the Resident Records File.

Resident files were reviewed and dates on the Resident Acknowledgement Forms were completed the day the resident arrived or the next day. Several random residents reported during their interviews that they remembered receiving information regarding PREA the day they arrived. Zero Tolerance PREA posters and Ways to Report flyers were highly visible in all areas of the facility and information was in the Orientation Booklet all residents are all provided.

After reviewing agency policy and procedures, staff and resident interviews, and documentation provided this auditor finds this standard in compliance.

Dismas Charities Inc. PREA Coordinator

Findings:

Dismas Charities Midland Operations Manual, Procedure 10.B Programs, Resident Case Management, dated 2/2019, Dismas Charities Midland Operations Manual, Procedure 10.E Programs, Individual Orientation, dated 2/2019 and the Dismas Charities, Inc. Screening Questionnaire were reviewed. Staff are required to complete the PREA Screening Questionnaire with the resident upon their arrival at the facility. Upon completion/signing of this document, staff are to place it in the Director's mailbox for review and assessment of risk factors. A re-assessment of the PREA screening questionnaire will be included in every counseling session and documented under the "Health Assessment" section. This is accomplished by asking the resident if there have been any changes in their situation since the initial screening or last meeting. Counselors ask PREA questions every week during the first month and then every two weeks after the first month.

Dismas Charities Midland Operations Manual, Procedure 9.B Referral and Intake Processing, Admission requires staff to complete the Initial PREA Screening Questionnaire (dci902) and upon completion forward it to the Director for further review and evaluation. Staff conduct screening to determine a resident's risk of being sexually abused by other residents or their risk of being sexually abusive towards other residents. The screening shall utilize an objective screening instrument that obtains the following minimum criteria to assess residents for risk of sexual victimization: Whether the resident has a mental, physical, or developmental disability; The age of the resident; The physical build of the resident; Whether the resident has previously been incarcerated; Whether the resident's criminal history is exclusively nonviolent; Whether the resident has prior convictions for sex offenses against an adult or child; Whether the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; Whether the resident has previously experienced sexual victimization; and the resident's own perception of vulnerability; Although the screening instruments initially provided did not include the minimum criteria, the PREA Coordinator shared that he was in the process of making changes that include all of the criteria.

The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse (as known to the agency) in assessing residents for risk of being sexually abusive. Counselors the resident's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening by asking the PREA questions every week during the first month and then every two weeks after the first month. Residents are not disciplined for refusing to answer or for not disclosing complete information related to questions regarding whether the resident has a mental, physical, or developmental disability, whether the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender non-conforming, whether the resident has previously experienced sexual victimization and the resident's own perception of vulnerability during the screening or assessment process.

The information gained from the screening for risk of victimization and abusiveness is limited to staff on a "need to know basis". The information in the report is used in determining housing and bed assignments with the goal of keeping residents who are high risk of being sexually victimized separated from those who are at high risk for being sexually abusive. The facility should make individualized determinations about how to ensure the safety of each resident.

According to the PAQ, the facility reassessed (Redacted) residents who entered the facility within the past (12) months whose length of stay in the facility was for (72) hours or more and who were screened for risk of sexual victimization or risk of abusing other inmates. The facility also reported that (Redacted) residents who

entered the facility whose length of stay was for (30) days or more who were reassessed for their risk of sexual victimization or of being sexual abusive within (30) days.

After reviewing the screening instrument, reviewing agency policy and procedures, staff interviews, resident interviews and observations made during the onsite portion of the audit, this auditor finds the facility exceeds this standard.

Dismas Charities Inc. Sexual Abuse/Harassment/Misconduct/Prevention/Intervention Procedure 24.3, Prevention and Reporting requires that multiple internal ways should be provided for residents to privately report sexual abuse and sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Ways of reporting incidents of sexual abuse and harassment include Direct reporting to a staff member, completing an Action Request on the kiosk, and third-party reporting, reporting via the published (Kentucky) helpline and through a local rape crisis center. While touring the facility, signage was observed in multiple areas in each living and dayroom area. The signage included instructions and numbers that can be called to report incidents of sexual abuse/assault. Additional signage provided contact information for Resident reporting, Family & Friends Reporting, Employee Reporting and Employee Responsibilities. Third party reporting can be made via email, phone or letter. When residents arrive at the facility, they are provided a document that explains how to report incidents anonymously. The residents are provided a telephone number to access the Midland Rape Crisis Center. A representative indicated that there had been no calls from residents from Dismas Charities Midland during the past (12) months requesting any emotional support services related to a sexual abuse or sexual harassment occurring at the facility.

When residents participate in Orientation, they are provided a pamphlet regarding PREA Awareness, to include different ways to report incidents of sexual abuse and sexual harassment. Pamphlets provided contain a telephone number to call as well as an explanation of the resident's rights in regard to sexual safety.

Posters that were observed throughout the facility during the tour and includes methods for staff, residents and visitors to report sexual abuse or sexual harassment.

Even though the facility does not house residents detained solely for civil immigration purposes, policy still requires that residents detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the US Department of Homeland Security.

Policy also requires that staff accept reports of sexual abuse and sexual harassment that are made verbally, in writing, anonymously or from a third party. Each employee has a duty to report any and all violations and are to immediately notify the Director or Assistant Director and document on an Extraordinary Occurrence Report. Policy also allows staff to privately

report sexual abuse and sexual harassment of residents by contacting the PREA Coordinator directly. The ways for staff to report are defined in the procedure and is also included on the PREA posters that are prominently posted throughout all areas of the facility.

Interviews with random residents confirmed they were educated on how to report sexual abuse and sexual harassment utilizing the hotline numbers posted on each housing unit. Most residents were aware of where to go to find reporting methods in their Orientation paperwork. Interviews with random staff confirmed they were all comfortable in reporting situations to the Director and knew additional ways to report were on the posters.

After reviewing agency procedures, staff and resident interviews, interviews with external entity and observations made during the onsite portion of the audit, this auditor finds the facility meets this standard based on the multiple reporting methods provided for the resident population and staff.

Dismas Charities Midland Operations Manual, Procedure 14.B, Administrative Remedy Procedure, Filing a Grievance (Federal Residents), dated 2/2019 and Dismas Charities Midland Operations Manual, Procedure 14.C, Administrative Remedy Procedure, Allegation of Sexual Abuse dated 2/2019, allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident occurred. Policy requires all grievances that are filed regarding allegations of sexual abuse or sexual harassment be submitted to the Director for appropriate action in accordance with PREA.

If a resident files a grievance alleging emergency substantial risk of imminent sexual abuse, the Director will take immediate action to safeguard to resident and provide an initial response within 48 hours and shall issue a final agency response within five days. Residents are educated and advised of the Administrative Remedy Grievance Procedure during their Orientation upon arrival. Residents are provided both written material and an oral explanation of the procedure and provided the opportunity to ask questions regarding the grievance procedure. Residents are permitted to request assistance in understanding the process and also in completing a grievance. Third parties, including other residents, staff members, family members, attorneys or outside advocate, shall be permitted to assist residents in filings requests for Administrative Remedy relating to allegation of sexual abuse, and shall be permitted to file such requests on behalf of the resident. If a third-party file such a request on behalf of a resident, Dismas requires as a condition of processing that the alleged victim agree to have the request filed on his or her behalf and may also require the alleged victim to personally pursue any subsequent steps in the Administrative Remedy Grievance Procedure. If the resident declines to have the request process on his or her behalf, the resident's decision will be documented.

Dismas Charities Inc. Sexual Abuse/Harassment/Misconduct/Prevention/Intervention Procedure 24.7, Discipline for Violating Sexual Abuse/Harassment Policies or Procedures notes that for the purpose of disciplinary actions, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

The facility reported that there were no grievances alleging sexual abuse filed by residents in the past twelve (12) months in which the resident declined third-party assistance, containing documentation of the resident's decision to decline.

The policy also explains that a resident can submit a grievance without submitting it to the staff member who is subject of the complaint. The policy does not allow the grievance to be referred to the staff member who is subject to the complaint.

The Administrative Remedy Grievance Procedure requires that once the investigation is complete, the Director will issue a final decision on the merits of any portion of the grievance alleging sexual abuse within 90 days of the initial filing of the grievance. The written findings are relayed to the resident, and what resolution, if any, will be implemented. If the resident doesn't agree with the action of the Director, they may file a formal grievance with the Bureau of Prisons through established Administrative Remedy Procedures. If the Director fails to respond to the grievance within 90 days, the resident may consider the grievance denied and may utilize the Administrative Remedy Process pertaining to their legal status.

The facility reported that there had been zero (0) grievances filed in the last twelve (12) months that alleged sexual abuse that reached final decision within ninety (90) days of being filed. None of these grievances required an extension. There were zero (0) grievances filed in the last twelve (12) months that alleged sexual harassment that reached final decision within (90) days of being filed.

If a resident files a grievance alleging emergency substantial risk of imminent sexual abuse, the Director will take immediate action to safeguard the resident and provide an initial response in 48 hours and shall issue a final agency decision within five (5) calendar days. The initial response and final agency decision shall document the agency's determination whether the resident is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance.

Interviews with random residents confirmed the multiple ways a resident could report allegations of sexual abuse or sexual harassment, submitting a grievance was one of those ways. The residents explained the grievance boxes on the housing units. None of the random residents interviewed had ever filed a grievance regarding an allegation of sexual abuse or sexual harassment. Random staff interviewed shared how a resident could give a grievance directly to the Director.

After reviewing agency policy and procedures, staff and resident interviews, and observations made during the onsite portion of the audit, this auditor finds this standard in compliance.

Interviews:

Dismas Charities Midland Director
Dismas Charities, Inc. PREA Coordinator
Random Sample of Staff

Findings:

Dismas Charities Inc. Sexual Abuse/Harassment/Misconduct/Prevention/Intervention Procedure 24.3, Prevention and Reporting requires all residents/staff to report when a resident has been victimized or the resident has knowledge of sexual abuse within the center. Every staff member has the responsibility to immediately address any observed behavior or conversations involving a resident or co-worker that suggests inappropriate communications and/or contact.

When a staff member observes two or more residents engaged in communication and/or behaviors that suggest an inappropriate relationship may be forming, they are to talk to the involved residents. Residents are to be counseled on the rules prohibiting relationships and sexual contact. Residents are to be reminded of the sexual /abuse policy. If residents are sitting too close to one another or have engaged in any kind of physical contact, regardless of how small, they are to be separated and warned the first time with repeat occurrences receiving disciplinary write ups. The incident is to be documented in the House Log. Residents who are found to be together in an unauthorized area are to receive a disciplinary write up.

When a staff member observes a co-worker/volunteer/contractor or one or more residents engaged in communication and/or behaviors that suggest an inappropriate relationship might be forming, the staff member is to immediately report the matter to the Director, who will follow protocols for gathering information and making notifications. The Director will in all cases notify the RVP within thirty (30) minutes of being made aware of an incident or a possible issue.

Dismas Charities Inc. Sexual Abuse/Harassment/Misconduct/Prevention/Intervention Procedure 24.6, Protection Against Retaliation requires that all residents and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations are protected from retaliation by other residents or staff. It is required that all staff report immediately and according to agency policy any retaliation against residents or staff who reported such an incident or may have contributed to or failed to prevent such an incident. The director or designee is responsible for monitoring against retaliation. Multiple protection measures, such as dorm/room changes or transfers for resident victims or abusers, removal of alleged staff or resident abusers from contact with victims, and emotional support services for residents or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations may be used. For at least 90 days following a report of sexual abuse, the center monitors the conduct and treatment of residents or staff who reported the sexual abuse and of residents who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by residents or staff and shall act promptly to remedy any such retaliation. Items monitored include any resident disciplinary reports, housing, or program changes, or negative performance reviews or changes in staff schedules or hours. The monitoring shall continue beyond 90 days if the initial monitoring indicates a continuing need.

In the case of residents, such monitoring shall also include checks when meeting with counselor during scheduled times. If any other individual who cooperates with an investigation expresses a fear of retaliation, the center shall take appropriate measures to protect that individual against retaliation. The monitoring will end if the allegation is unfounded or the resident is transferred or released.

Staff may receive an anonymous note, hear a rumor, or other third-party information (including from a resident's family or friend) that a resident has been the victim of sexual abuse. Staff must immediately report all information to the Director and follow-up with completion of an Extraordinary Occurrence Report (dci422).

By law, the identity of an alleged victim of sexual abuse is confidential information. The sharing of sensitive information is limited to those staff who must know in accordance with policy, federal and state statute and ethical standards. Staff must, to the extent possible, limit the release of information in an effort to protect the victim and reporter of sexual abuse from retribution. The facility would never have a resident under the age of 18 but may have a resident that is considered a vulnerable adult. As well, the facility does not have medical or mental health staff assigned to the facility. Dismas will also notify the appropriate supervising authorities of the reporting resident.

Random staff interviews, indicated staff understood their responsibility to report any knowledge, suspicion or information of sexual abuse or sexual harassment. Staff also understood that any information related to sexual abuse or sexual harassment is to be confidential and not be shared with anyone other than those that need to know. Staff said they would report to the Director. Through an interview with the Director, he advised that any reports of allegation of sexual abuse or sexual harassment that are reported through a third-party would be referred to the Regional Vice-President and would be processed as any other allegation.

After reviewing agency policy and procedures, staff interviews, information obtained through documentation review and observations made during the onsite portion of the audit, this auditor finds this standard in compliance.

- Security and Non-Security First Responders

Findings:

Dismas Charities Inc. Sexual Abuse/Harassment/Misconduct/Prevention/Intervention Procedure 24.4, Response Procedures requires first responders to ensure that the alleged resident victim is separated from the alleged resident perpetrator. The main objective is to coordinate actions taken in response to an incident of sexual abuse, among staff on duty, medical and mental health practitioners, investigators, and center management. The goal is to safeguard the resident from further physical or psychological harm.

First Responders/staff on duty or receiving an alleged report of sexual abuse/harassment are required to separate the alleged perpetrator and victim so that neither can hear nor see the other. The 1st Responders/Staff are then encouraged to alert other staff for assistance and inform the Director of the alleged sexual abuse and remain with the alleged victim to provide safety and support and if needed, to ensure that the victim does not wash, shower, change clothes or otherwise compromise physical evidence on his/her body prior to examination. If needed, ensure all parties involved received emergency medical treatment and arrange for a Sexual Assault Forensic Exam (SAFE) if wanted. If resident is unclear about the need for an exam, the Sexual Assault Nurse Examiner (SANE) should make that decision. If needed and directed, contact the State police. If needed and directed, secure the crime scene, take photographs as needed, and get names of witnesses, if any. Staff are also required to start a log of events and complete an Extraordinary Occurrence Report. The Director will ensure that all of the previously listed steps were completed as well as notifying the Authority having Jurisdiction (AHJ) and the Regional Vice President and ensure on-going support for the victim. If the resident believes they are no longer safe in their current environment, arrangements are made with the Bureau of Prisons, US Probation/Pre-Trial or the KY Department of Corrections as appropriate to have the resident moved to another location, including an administrative transfer back to an institution. The Director will ensure to start or assist and support any investigation by the State police or Local Law Enforcement and coordinate with a Rape Crisis Advocate for continued mental health treatment and counseling as needed. The Director also ensures that all actions and information are documented.

Interviews were conducted with random staff/First Responders and all staff were able to recite First Responder responsibilities in accordance with agency procedure when it is learned a resident was sexually abused. A laminated credit-card style information card that detailed First Responder duties when they learn a resident was sexually abused. The card had contact information for those who are to be contacted if a situation is reported. Staff all reported they attended the required training upon being hired and then attended training each year after they were hired. Training records were reviewed and indicated that staff attended the required training and learned of the proper responses when learning a resident was sexually abused.

The Director/PCM reported that there had been one (1) incident reported to security and non-security staff members that a resident had been sexually abused in the past twelve (12) months.

After reviewing agency policy and procedures, staff interviews and resident interviews, information obtained through documentation review and observations made during the onsite portion of the audit, this auditor finds this standard in compliance.

The following evidence was analyzed in making the compliance determination:

Information or Documents Reviewed:

Dismas Charities Inc. Sexual Abuse/Harassment/Misconduct/Prevention/Intervention Procedure 24.5, Investigations
Specialized Training: Investigating Sexual Abuse in Confinement Settings Training Curriculum and Agenda
PREA Investigations for Allegations of Sexual Abuse: Specialized Training curriculum from the Pacific Training Group
Dismas Charities Midland's PREA Audit: Pre-Audit Questionnaire (Community Confinement Facilities)
PREA Standards Compliance Checklist

Interviews:

Dismas Charities, Inc. Investigator
Dismas Charities Midland Director

Findings:

Dismas Charities Inc. Sexual Abuse/Harassment/Misconduct/Prevention/Intervention, Procedure 24.5, Investigations requires the facility conduct a systematic and official inquiry into all allegations of sexual abuse/harassment reported or discovered to aid in determining the facts from all available evidence, prevent further trauma to the victim, safeguard the community, protect the rights of all parties and hold accountable those parties responsible for violating the law. An effort should be made for a "multi-disciplinary team" approach which may include Investigators, victim advocate, social services, mental health, district attorney, etc.

Sexual abuse and sexual harassment administrative investigations shall be conducted by staff that have received special training in sexual abuse/harassment investigations or for criminal investigations, the appropriate authority having jurisdiction. Interviews with a Dismas Charities Inc. investigator confirmed their completion of the Specialized Training: Investigating Sexual Abuse in Confinement Settings. Dismas Charities Inc. currently has fourteen (14) staff who has attended the Investigator training. More recently, Dismas investigators have attended and completed the PREA Investigations for Allegations of Sexual Abuse: Specialized Training curriculum from the Pacific Training Group When an outside agency investigates sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation. The Director notifies the Regional VP and the PREA Coordinator of all allegations of sexual abuse and harassment who will ensure completion of an administrative investigation. One of the fourteen (14) trained PREA investigators could be assigned to conduct the administrative investigation.

Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data including video and/or audio recordings; shall interview alleged victims, suspected perpetrators, and witnesses. The investigator shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated.

The Investigators are trained to review prior complaints and reports of sexual abuse involving the suspected perpetrator when determining credibility of the allegations. When the quality of evidence appears to support criminal prosecution, appropriate referrals will be made. The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as resident or staff. During the interviews with the Investigator, they determine the credibility of the subject of an interview depending on their ability to provide verifiable details that contribute to the veracity of their story. The more verifiable details they provide, the more it contributes to the veracity of their story. The Investigator's questions also address things that only appear to be secondary to the line of questioning but are key to establishing the credibility of their narrative. The Investigator explained they like to measure whether the subject's non-verbal indicators of truthfulness align with their verbal indicators that they are being truthful.

The policies also require that investigations include an effort to determine whether staff actions or failures to act contributed to the abuse. Administrative Investigations shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Criminal Investigations shall be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence with all documentary evidence attached where feasible. Substantiated allegations of conduct that appears criminal shall be referred for prosecution.

According to the PAQ, and verification from interviews with the Director/PCM, it was confirmed that there were two situations

of allegations that were unsubstantiated involving two employees over the past 12 months that were unsubstantiated.

All written investigation reports will be retained as long as the alleged abuser is incarcerated or employed by the agency, plus five (5) years. The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.

After reviewing agency policy and procedures, staff interviews, information obtained through documentation review and observations made during the onsite portion of the audit, this auditor finds this standard in compliance.

When a resident victim is evaluated and treated, it should include follow-up services, treatment plans and referrals for follow-up care upon release, transfer or placement in other facilities. The Midland Rape Crisis Center is able to provide confidential emotional support services as it relates to sexual abuse. This also includes treatment for alleged abusers. The facility has a MOU with the BOP Community Treatment Services (CTS) that are able to provide confidential emotional support services as it relates to sexual abuse. CTS is responsible for providing mental health assessments and counseling for those residents who fall under PREA while residing at the Residential Reentry Center and/or home confinement. This includes treatment for alleged abusers. The policies require the facilities to offer follow-up treatment that may include screening, including follow-up care for sexually transmitted infections and other communicable diseases and any other counseling or assistance as requested. Also required are treatment services to be free of financial cost regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.</p> <p>Interviews with the medical staff from Midland Memorial Hospital confirmed that all sexual assault victims are offered a sexual assault assessment, individual counseling, referral to the mental health services, medications as ordered by the physician, laboratory testing for STD and HIV and follow-up. Victims of sexual abuse will be transported to Midland Memorial Hospital to receive such treatment and the physical evidence will be gathered by a certified SANE.</p> <p>After reviewing agency policy and procedures, interviews with local hospital staff, information obtained through documentation review, this auditor finds the facility is compliant with the standard.</p> <p>Corrective Action:</p> <p>None</p>

The following evidence was analyzed in making the compliance determination:

Information or Documents Reviewed:

- Dismas Charities Inc., Sexual Abuse/Harassment/Misconduct/Prevention/Intervention, Procedure 24.8, Incident Reviews
- PREA Case Review Protocol
- Midland PREA Incident Reviews
- Dismas Charities Midland's PREA Audit: Pre-Audit Questionnaire (Community Confinement Facilities)
- PREA Standards Compliance Checklist

Interviews:

- Dismas Charities Midland Director
- Dismas Charities Inc., PREA Coordinator

Findings:

Dismas Charities Inc., Sexual Abuse/Harassment/Misconduct/Prevention/Intervention, Procedure 24.8, Incident Reviews ensures proper procedures were followed in all incidents of Sexual Abuse/Harassment and to provide a system wide review to prevent future incidents as well as improvements to the program or center to support the Dismas PREA policy and procedures. It requires the collaboration of all involved: Center staff, investigations, victim services, mental health, and medical.

Dismas shall conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded. The review shall ordinarily occur within 30 days of the conclusion of the investigation. The case review meeting will be scheduled and facilitated by the PREA Coordinator.

The review team shall include the Dismas PREA Coordinator, The Regional Vice-President and the director of the center involved, with input from line supervisors, investigators, and/or medical/ mental health practitioners as needed. The review team is tasked with reviewing the situation and consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status or perceived status; or gang affiliation; or motivated or otherwise caused by other group dynamics at the center; examine the area in the center where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; assess the adequacy of staffing levels in that area during the different shifts; and assess whether monitoring technology should be deployed or augmented to supplement supervision by staff. Policy also requires completion of a written report of its findings that includes any recommendations for improvement and any reasons recommendations were not implemented.

All closed cases of sexual abuse, except those determined to be unfounded, will be evaluated by the PREA Review Team. The Review team will consist of the Agency PREA coordinator, the appropriate Regional Vice-President, the center's director and if part of the case, the following: any internal Investigators, Medical, Mental Health, Victim Services Advocate, and (if applicable) Community Crisis Center Advocates may be invited for input. It may be advisable in some cases to extend invitations to investigators from the Local Law enforcement to the supervising authorities, and to other professionals who were involved in the case.

A PREA Review Team was held for the two allegation cases the facility had. The Agency PREA Coordinator, the Regional Vice-President and the center Director were members as noted in the Case Review Reports provided.

Members of the PREA Review Team were interviewed and shared the discussions that take place during the Incident Review. Members shared that discussion regarding recommendations for improvement are held and their recommendations are taken seriously. During an Incident Review, a brief summary of the incident is shared, discussion about those things that went well during the process and those that did not. All components of the standard are considered during the Incident Review with discussion on each.

After reviewing agency policy and procedures, staff interviews, information obtained through documentation review and observations made during the onsite portion of the audit, this auditor finds this standard in compliance.

115.252 (a)	Exhaustion of administrative remedies	
	Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse.	yes
115.252 (b)	Exhaustion of administrative remedies	
	Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.)	yes
	Does the agency always refrain from requiring a resident to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.)	yes
115.252 (c)	Exhaustion of administrative remedies	
	Does the agency ensure that: a resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.)	yes
	Does the agency ensure that: such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.)	yes
115.252 (d)	Exhaustion of administrative remedies	
	Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.)	yes
	If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time (the maximum allowable extension is 70 days per 115.252(d)(3)), does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.)	yes
	At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.)	yes
115.252 (e)	Exhaustion of administrative remedies	
	Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)	yes
	Are those third parties also permitted to file such requests on behalf of residents? (If a third party files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.)	yes
	If the resident declines to have the request processed on his or her behalf, does the agency document the resident's decision? (N/A if agency is exempt from this standard.)	yes

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

115.252 (f)	Exhaustion of administrative remedies	
	Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.)	yes
	After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.)	yes
	After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.)	yes
	After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.)	yes
	Does the initial response and final agency decision document the agency's determination whether the resident is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.)	yes
	Does the initial response document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.)	yes
	Does the agency's final decision document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.)	yes
115.252 (g)	Exhaustion of administrative remedies

115.403 (f)	Audit contents and findings	

- Redacted Material is proprietary information and the release of such is a security threat to and breach of confidentiality of residents and staff.

	The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports. The review period is for prior audits completed during the past three years PRECEDING THIS AUDIT. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision. (N/A if there have been no Final Audit Reports issued in the past three years, or, in the case of single facility agencies, there has never been a Final Audit Report issued.)	yes
