Facility AUDIT FINDINGS
<b>Summary of Audit Findings</b>
The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

The auditor selected additional residents from the available targeted populations and increased the number of random resident interviews to ensure that the appropriate numbers of residents were interviewed. There was a total of 20 formal resident interviews conducted. The auditor selected residents randomly by using a full roster provided at the beginning of the on-site review. <p><b>Targeted Inmate/Resident/Detainee Interviews</b></p>	
<p><b>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b></p>	<p>2</p>

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p><b>84. Did you have access to all areas of the facility?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>Was the site review an active, inquiring process that included the following:</b></p>

<p><b>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

## SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

### Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
	0	0	0	0
	0	0	0	0
<b>Total</b>	0	0	0	0

**93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:**

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
<b>Inmate-on-inmate sexual harassment</b>	0	0	0	0
<b>Staff-on-inmate sexual harassment</b>	0	0	0	0
<b>Total</b>	0	0	0	0

**Sexual Abuse and Sexual Harassment Investigation Outcomes**

**Sexual Abuse Investigation Outcomes**

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

**94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:**

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
<b>Inmate-on-inmate sexual abuse</b>	0	0	0	0	0
<b>Staff-on-inmate sexual abuse</b>	0	0	0	0	0
<b>Total</b>	0	0	0	0	0

**95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:**

	Ongoing	Unfounded	Unsubstantiated	Substantiated

Interviews:

1. Random Resident Interviews
2. Resident Monitor Interviews

During resident interviews, residents reported being able to use the restroom, take a shower and change clothing with privacy from staff and other residents. The process for exiting and returning to the facility was discussed with residents. They indicated that when they return to the facility from either work or other passes they go through a process which includes a property search and pat search. All residents reported that male staff search male residents and if necessary female staff conduct searches using a hand-held metal detector.

During Resident Monitor interviews, they reported that when doing counts and routine rounds that female male staff rarely go in male dorms. They also indicated that when necessary to do so they knock and announce and wait before entering areas where residents may be undressed. The process for exiting and returning to the facility was also discussed with Residents Monitors. They indicated that when residents return to the facility from either work or other passes there is a process which includes a property search and pat search. All reported that male staff search male residents. If same gender staff is not available, staff is trained to use a “wand” style metal detector to conduct searches. Resident Monitor stated they have received training on how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents if needed.

Site Review Observations:

Observations during on-site review of physical plant

(a) The Dismas Charities Atlanta Facility does not allow “opposite sex” pat searches, strip searches or body cavity searches. All staff is trained in various searches and search techniques. Dismas Charities utilized the “Guidance in Cross-Gender and Transgender Pat Searches” training module from the PREA Resource Center. This was confirmed during documentation review and staff interviews.

Dismas Charities Atlanta Facility reported the number of cross-gender strip or cross-gender visual body cavity searches of residents were (0) zero.

(b) Dismas Charities does not permit cross-gender pat-down searches of female residents absent exigent circumstances.

Dismas Charities Atlanta Facility reported the number of pat-down searches of female residents that were conducted by male staff were (0) zero.

(c) The Atlanta Facility has sufficient staff available to conduct searches when needed. If male staff is not available, female staff is trained to use a “wand” style metal detector to conduct searches.

(d) Dismas Charities policies and procedures enable residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Policies require staff of the opposite gender to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing.

Both a review of policies and interviews with staff and residents confirmed that staff knock and announce their presence and wait before entering into dorms.

During the tour and review of cameras in the CMO it was found that none of the cameras view the dorms, toilet, shower or other areas where residents may be undressed. All toilets have doors on stalls and all showers have curtains.

(e) Dismas Charities policy prohibits searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident’s genital status.

Dismas Charities reported zero (0) searches or physical examinations of transgender or intersex resident for the purpose of determining the resident's genital status.

(f) Dismas Charities reported 100% of staff have been trained in how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

The Auditor concluded staff had been appropriately trained to conduct cross-gender searches if necessary. Staff make opposite gender announcements when entering resident living units. Residents are able to shower, change clothing, and use the restroom without nonmedical staff of the opposite gender seeing them do so. Staff has been trained to treat transgender and intersex inmates professionally and respectfully. The Auditor reviewed the agency’s policies and procedures, training documents, shift rosters, made on site observations, and interviewed staff and resident. Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.

	Dismas Charities Atlanta Facility provided the following documents to assist the auditor in determining compliance with the standard:

1. Dismas Charities, Inc. PERSONNEL policy EMPLOYEE BACKGROUND CHECKS Procedure 2.4

2. Dismas Charities, Inc. POLICY MANUAL-PERSONNEL Page #20

3. Dismas Charities, Inc. PREA Questions for New Applicants

4. Dismas Charities, Inc. Background Checks (BOP)

5. New and Current Employee Background Checks

6. Contract Staff and Volunteer Background Checks

Interviews:

1. Facility Director/PREA Compliance Manager Interview

2. Agency PREA Coordinator Interview

Interview with the agency PREA Coordinator and Facility Director both indicated that all applicants that may work with residents submit their information to Dismas Charities and it is forwarded on to the BOP for a complete background check. New staff are not allowed to work with residents until they are cleared. The same applies any contract staff and volunteers. Additionally, the PREA Coordinator stated that their contract with the BOP requires criminal background records checks each year and before any new contract for all current employees who may have contact with residents.

Site Review Observations:

1. Observations during on-site review of physical plant

(a) Dismas Charities Inc. requires background investigations for all new hires as well as for staff being considered for a promotion. Dismas Charities Policy #2.1 PERSONNEL Employee Background Checks states: *"Prior to hiring a person, the Director or designee must complete reference checks on past employers, obtain education verification, and obtain a background check from the Kentucky Office of the Courts. If a Federal contract is involved, the Director must get an NCIC/NLETS clearance from the BOP."*

Dismas Charities Atlanta reported that in the past 12 months, the number of persons hired who may have contact with residents who have had criminal background record checks was 12

Dismas Charities provided documentation showing completion of background checks for new hires, current employees and those being considered for promotion. Background checks are completed by the BOP.

(b) Dismas Charities policy indicates that: *"Any incidents of sexual harassment will be taken into consideration when determining whether to hire or promote anyone, or enlist the services of any contractor, who may have contact with residents."*

(c) Dismas Charities policy states: *“Employment reference checks will be conducted not only for outside applicants but for internal applicants as well in order to verify current work records. The hiring manager shall request a review of the employee’s personnel file, as well as a review of supervisory counseling, formal and informal, for this purpose.”* This includes efforts to contact any prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

(d) Dismas Charities policy requires a criminal background records check before enlisting the services of any contractor who may have contact with residents

Dismas Charities Atlanta reported that in the past 12 months, the number of contracts for services where criminal background record checks were conducted on all staff covered in the contract who might have contact with residents was (0) zero.

During the preaudit documentation review, Dismas Charities provided documentation showing completion of background checks for volunteers and contract staff. Background checks are completed by the BOP.

(e) Dismas Charities exceeds the requirements of this component of the standard. Their contract with the BOP requires criminal background records checks each year and before any new contract for all current employees who may have contact with residents.

(f) Dismas Charities asks all applicants and employees who may have contact with residents directly about previous misconduct described in paragraph (a) of this section in written applications or interviews for hiring or promotions nor does Dismas Charities employees about previous misconduct described in paragraph (a) of this section in as part of reviews of current employees. Questions are found on the online application completed by all applicants.

(g) Dismas Charities policy states *“Material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination.”*

Dismas Charities provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

The Auditor concluded that Dismas Charities takes appropriate steps to identify previous acts of sexual misconduct before hiring staff, enlisting the services of contractors, and before promoting existing staff. The Auditor conducted a thorough review of the agency's policies, procedures, employment records, forms and interviewed staff and contractors. Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.

During Resident Monitor interviews they indicated that during the intake process they utilize the Initial PREA Screening Questionnaire (dci902) as part of the intake packet. Resident Monitors stated they go over questions with the resident and forward the packet to the Facility Director for review.

During the Facility Director interview, he explained that he reviews all intake packets including the PREA Screening Questionnaire. Additionally, he indicated that screening information is used to insure residents who may be vulnerable are kept separate from those that may take advantage of them.

During Counselor interviews they indicated they review the residents initial PREA Screening Questionnaire with residents during their initial one-on-one meeting with the resident. Counselors indicated that initial meetings with new residents generally take place within the first five days of arrival at the facility. Additionally, Counselors stated they asked residents if anything has changed since their initial PREA screening or if they have any concerns about their safety during each biweekly one-on-one meeting.

During resident interviews it was confirmed that Resident Monitors ask PREA screening questions within the first few hours upon arrival at the facility and that questions are asked individually in a private location. Residents also confirmed that during biweekly, one-on-one meetings with their counselor they are asked if anything has changed since their initial PREA screening and if they have any concerns about their safety.

#### Site Review Observations:

##### Observations during on-site review of physical plant

(a) During the intake process Resident Monitors ask questions to assess residents for their risk of being sexually abused or sexually abusive toward others.

(b) Interviews conducted with staff indicate intake screenings are typically completed within two hours of arrival but always take place within 72 hours of arrival at the facility.

Dismas Charities Atlanta Facility reported the number of residents entering the facility (either through intake or transfer) within the past 12 months (whose length of stay in the facility was for 72 hours or more) who were screened for risk of sexual victimization or risk of sexually abusing other residents within 72 hours of their entry into the facility was (Redacted).

During the onsite visit the auditor was able to observe an intake of a new resident.

The screening questions were asked in private and the questionnaire was completed by the Resident Monitor and signed by the resident.

(c) The PREA screening assessments are conducted using an objective screening instrument which was verified by the auditor during the onsite visit.

(d) Dismas Charities intake screening instrument considers:

- whether the resident has a mental, physical, or developmental disability
- whether the resident is at risk of sexual victimization
- the age of the resident
- the physical build of the resident
- whether the resident has previously been incarcerated
- whether the resident's criminal history is exclusively nonviolent
- whether the resident has prior convictions for sex offenses against an adult or child
- whether the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming
- has previously experienced sexual victimization
- the residents' own perception of vulnerability

(e) When assessing residents for risk of being sexually abusive, the resident's initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, history of prior institutional violence or sexual abuse.

After completing the assessment both the resident and the Resident Monitor sign off that the resident has received information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment, how to report incidents or suspicions of sexual abuse or sexual harassment, their right to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, that all reports will be investigated and regarding agency policies and procedures for responding to such incidents and that they have received a copy of the PREA pamphlet and related educational materials.

Once the assessment is complete it is reviewed by the Facility Director to determine if any additional actions need to be taken based on how the questions were answered. If residents report past victimization in an institution that information is forwarded to the appropriate supervising authority. If a referral is needed due to past victimization that information is communicated to the resident's Counselor and may be referred to outside services if needed.

(f) Within a set time period not more than 30 days from the resident's arrival at the facility, the resident's assigned Resident Counselors reassess the resident's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening. It was confirmed during Resident Counselor and Random Resident interviews that this reassessment is being completed at their initial one-on-one meeting and every two weeks and documented in the counselor's case notes.

2. Resident Counselor Interviews

3. Facility Director/PREA Compliance Manager

During Resident Monitor interviews they confirmed that during the intake process they utilize the Initial PREA Screening Questionnaire (dci902) as part of the intake packet and use information from the screening to determine where to house residents in the facility to insure vulnerable residents are housed away potential predators.

During Resident Counselor interviews they indicated that they review the PREA Screening with the resident with residents during regular meetings and offer resources to those that disclose prior abuse and make referrals to outside counseling when needed.

During the Facility Director interview, he explained that he reviews and signs all PREA Screenings. He also stated they use information from the screening to determine where to house residents in the facility to insure vulnerable residents are housed away potential predators and have the option to work with the BOP to move residents to a similar facility.

Site Review Observations:

Observations during on-site review of physical plant

(a) Dismas Charities uses information from the risk screening required by § 115.241, with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive, to inform: housing assignments, bed assignments, work assignments, education assignments and program assignments.

(b) Dismas Charities reviews the Initial PREA Screening Questionnaire (dci902) and utilizes the information to make an individualized, case-by-case determination about how to ensure the safety of each resident while housed at the facility. If a resident

is identified that is more vulnerable the facility may house them in the dorm closest to the Central Monitoring Office. Generally, the BOP does not authorize residents with a predatory history to be housed in facilities like Dismas Atlanta.

(c) When deciding where to assign transgender or intersex resident the Facility Director determines the residents housing assignment after consulting with Resident Counselors and reviewing resident records and an interview with the resident taking into consideration the residents own views of where they would prefer to be housed.

(d) Dismas Charities policy requires that placement and programming assignments for each transgender or intersex resident is reassessed at least twice per year.

(e) Resident Counselors meet with transgender or intersex individuals to discuss the residents' own views with respect to his or her own safety and will give serious consideration when making facility and housing placement decisions and programming assignments.

(f) Transgender residents at the Atlanta Facility have the opportunity to shower separately from other residents.

During the onsite audit there were no residents identified as LGBTI assigned to the facility.

(g) Dismas Charities does not place lesbian, gay, bisexual, transgender, or intersex residents in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such residents. The Atlanta Facility does not have a dedicated unit or wing solely on the basis of identification or status.

Information is maintained in the Resident file and kept in the counselor's office and is only accessible to the Director, Assistant Director and Resident Counselors.

Counselor's case notes are completed on the computer which is password protected. Case notes, once complete, are printed and placed in the resident file. Ten (10) file reviews were completed, Initial PREA Screening Questionnaires (dci902) were found to be properly completed and filed. Counselor case notes were also printed and found in the resident file.

The Auditor concluded Dismas Charities makes individualized determinations when assigning resident's housing, bed, work, programming and education assignments. Dismas Charities has appropriate policies, procedures and practices in place to protect vulnerable residents from those identified as potential abusers. The Auditor conducted a thorough review of policies, procedures, records, PREA Screenings, interviewed staff and residents. Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.

Additionally, the Dismas Charities hotline is posted in several locations around the facility and the Bureau of Prisons National PREA Coordinator and Office of Internal Affairs information is posted on both bulletin boards.

Outgoing mail is sealed and locked in the Central Monitoring Office until it is picked up daily by the Postal Service. Residents also have the option of sending mail while out of the facility.

Residents have access to free house phones which are accessible during “house” hours from 0600 - 2230 Monday to Friday and 0600 - 2330 on the weekends. The majority of residents also have their own cell phones.

Interviews:

1. Random Resident interviews.
2. Facility Director Interview

Interviews with random residents confirmed multiple ways a resident could report allegations of sexual abuse or sexual harassment, submitting a grievance was one of those ways. The residents explained there are grievance boxes in the facility. None of the random residents interviewed had ever filed a grievance regarding an allegation of sexual abuse or sexual harassment.

The Facility Director explained during his interview that all resident grievances came to him for a final decision and understood the timeframes for responding to a PREA related grievance.

Site Review Observations:

Observations during on-site review of physical plant

- (a) Dismas Charities permits residents to submit grievances regarding allegations of sexual abuse without any type of time limits.
- (b) Dismas Charities does not require residents to use an informal grievance process, or to otherwise attempt to resolve incidents of sexual abuse.
- (c) Dismas Charities ensures a resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint and the grievance is not referred to the staff member who is the subject of the complaint.
- (d) Dismas Charities policy states:

All grievances pertaining to an allegation of sexual abuse are handled formally and are documented and investigated. Once the investigation is complete, the Director will issue a final decision on the merits of any portion of the grievance alleging sexual abuse within 90 days of the initial filing of the grievance. The written findings are relayed to the resident, and what resolution, if any, will be implemented. If the resident doesn't agree with the action of the Director they may file a formal

grievance with the Bureau of Prisons through established Administrative Remedy Procedures. If the Director fails to respond to the grievance within 90 days, the resident may consider the grievance denied and may utilize the Administrative Remedy Process pertaining to their legal status.

(e) Dismas Charities policy states:

“Third parties, including other residents, staff members, family members, attorneys or outside advocate, shall be permitted to assist residents in filing requests for Administrative Remedy relating to allegations of sexual abuse, and shall be permitted to file such requests on behalf of the resident. If a third-party files such a request on behalf of a resident, Dismas requires as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the Administrative Remedy Process. If the resident declines to have the request process on his or her behalf, the resident's decision will be documented.”

Dismas Charities has established procedures for filing an emergency grievance. Dismas Charities policy states:

The initial response and final agency decision shall document the agency's determination whether the resident is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance.”

(g) The Dismas Charities does not discipline residents for filing a grievance related to alleged sexual abuse. “The Director may discipline a resident for filing a grievance related to alleged sexual abuse only where the Director can demonstrate that the resident filed the grievance in bad faith.”

Site Review Observations:

Observations during on-site review of physical plant

(a) Dismas Charities policy outlines a process to protect all residents and staff that report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other residents or staff, and shall designate which staff members or departments are charged with monitoring retaliation. The Facility Director/PREA Compliance Manager or designee is responsible for monitoring.

(b) Dismas Charities has multiple protection measures, such as housing changes or transfers for resident victims or abusers, removal of alleged staff or resident abusers from contact with victims, and emotional support services for residents or staff that fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

(c) The Facility Director/PREA Compliance Manager or designee will for at least 90 days following a report of sexual abuse, monitor the conduct and treatment of residents or staff who reported the sexual abuse and of residents who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by residents or staff, and shall act promptly to remedy any such retaliation. The Facility Director/PREA Compliance Manager or designee also monitors any resident disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The Facility Director/PREA Compliance Manager or designee may continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need.

(d) The Facility Director/PREA Compliance Manager or designee conducts status checks and that information is documented and maintained in the residents file.

(e) The Facility Director/PREA Compliance Manager or designee also monitors any individual who cooperates with an investigation and who expresses a fear of retaliation, and they will take appropriate measures to protect that individual against retaliation.

In the past 12 months Dismas Charities Atlanta reported zero (0) incidents of retaliation.

### 3. Resident Monitor Interviews

Interviews with administrative staff confirmed that residents (victims) of sexual abuse receive timely and unimpeded access to emergency medical treatment and crisis intervention services. Facility staff indicated that services begin immediately upon notification of a victim of sexual abuse from the supervisor or any other staff to contact the hospital and medical practitioner. All notifications are completed to the appropriate individuals and to follow the medical staff's directive regarding any forensic examination. Random staff interviews indicated the scope of services is in accordance to their professional judgment, policy and any physician orders or protocols. All orders are documented in the residents' health record.

Random staff interviews also indicated that a referral could be made to the hospital to begin any sexually transmitted infection prophylaxis treatment/services and orders for follow-up services. Mental health services would begin when the victim is available once the forensic examination has been completed at the hospital. Random staff interviews indicated mental health staff would see the victim no later than 24 hours of an incident and provide one-on-one counseling and make available outside emotional support services and follow-up care.
